### **Persistence and degradability**

AEROBIC: 1,4-Dichloro-2-nitrobenzene, present at 100 mg/L, reached 4% of its theoretical BOD in 4 weeks using an activated sludge inoculum at 30 mg/L in the Japanese MITI test which suggests the compound is not readily biodegradable(1).

### **Bioaccumulative potential**

BCF values of 18-103 were measured for 1,4-dichloro-2-nitrobenzene in carp (*Cyprinus carpio*) at concentrations of 5-50 µg/L over a 6-week exposure period(1). A mean 1,4-dichloro-2-nitrobenzene BCF of 118 was measured in rainbow trout over a 36-day exposure period(2). According to a classification scheme(3), these BCF values suggest the potential for bioconcentration in aquatic organisms is low to moderate(SRC). In a static container 3-day exposure test, a BCF of 1047 was measured in guppies (*Poecilia reticulata*) on a fat-weight basis(4).

### **Mobility in soil**

Using a structure estimation method based on molecular connectivity indices(1), the Koc of 1,4-dichloro-2-nitrobenzene can be estimated to be 590(SRC). According to a classification scheme(2), this estimated Koc value suggests that 1,4-dichloro-2-nitrobenzene is expected to have low mobility in soil. 1,4-Dichloro-2-nitrobenzene did not leach in column leachate tests designed to assess leaching potential from wastes in landfill sites(3).

### **Other adverse effects**

no data available

## **SECTION 13: Disposal considerations**

### **Disposal methods**

#### **Product**

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

#### **Contaminated packaging**

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.
