## Chemical Book India

## Dextropropoxyphene SDS

Revision Date: 2024-04-25 Revision Number: 1

Section 1	Section 2	Section 3	Section 4	Section 5	Section 6	Section 7	Section 8
Section 9	Section 10	Section 11	Section 12	Section 13	Section 14	Section 15	Section 16

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product identifier				
Product name:	Dextropropoxyphene			
CAS:	469-62-5			

## Relevant identified uses of the substance or mixture and uses advised against

 Relevant identified
 For R&D use only. Not for medicinal, household or other use.

 uses:
 uses advised

 uses:
 none

 against:

## **Company Identification**

Company:	Chemicalbook.in
Address:	5 vasavi Layout Basaveswara Nilayam Pragathi Nagar Hyderabad, India -500090
Telephone:	+91 9550333722

## **SECTION 2: Hazards identification**

## Classification of the substance or mixture

Acute toxicity - Category 3, Oral Hazardous to the aquatic environment, short-term (Acute) - Category Acute 1

#### GHS label elements, including precautionary statements

Pictogram(s)

Signal word

Danger

### Hazard statement(s)

H301 Toxic if swallowed H400 Very toxic to aquatic life

### Precautionary statement(s)

#### Prevention

P264 Wash ... thoroughly after handling.P270 Do not eat, drink or smoke when using this product.P273 Avoid release to the environment.

### Response

P301+P316 IF SWALLOWED: Get emergency medical help immediately. P321 Specific treatment (see ... on this label). P330 Rinse mouth. P391 Collect spillage.

## Storage

P405 Store locked up.

## Disposal

P501 Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

## Other hazards which do not result in classification

no data available

## SECTION 3: Composition/information on ingredients

#### Substance

Chemical name:	Dextropropoxyphene
Common names and synonyms:	Dextropropoxyphene
CAS number:	469-62-5
EC number:	207-420-5
Concentration:	100%

## **SECTION 4: First aid measures**

### Description of necessary first-aid measures

### If inhaled

Move the victim into fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration and consult a doctor immediately. Do not use mouth to mouth resuscitation if the victim ingested or inhaled the chemical.

### Following skin contact

Take off contaminated clothing immediately. Wash off with soap and plenty of water. Consult a doctor.

#### Following eye contact

Rinse with pure water for at least 15 minutes. Consult a doctor.

## Following ingestion

Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately.

## Most important symptoms/effects, acute and delayed

no data available

## Indication of immediate medical attention and special treatment needed, if necessary

Emergency and supportive measures: Maintain an open airway and assist ventilation if necessary. Administer supplemental oxygen. Treat coma, seizures, hypotension, and noncardiogenic pulmonary edema if they occur. Opiates and opioids

## **SECTION 5: Firefighting measures**

#### Suitable extinguishing media

As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing. Propoxyphene hydrochloride

#### Specific hazards arising from the chemical

no data available

#### Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Avoid breathing mist, gas or vapours. Avoid contacting with skin and eye. Use personal protective equipment. Wear chemical impermeable gloves. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

#### Environmental precautions

Prevent further spillage or leakage if it is safe to do so. Do not let the chemical enter drains. Discharge into the environment must be avoided.

### Methods and materials for containment and cleaning up

Wear approved respiratory protection, chemically compatible gloves and protective clothing. Wipe up spillage or collect spillage using a high efficiency vacuum cleaner. Avoid breathing dust. Place spillage in appropriately labelled container for disposal. Wash spill site. Propoxyphene hydrochloride

## **SECTION 7: Handling and storage**

#### Precautions for safe handling

Handling in a well ventilated place. Wear suitable protective clothing. Avoid contact with skin and eyes. Avoid formation of dust

and aerosols. Use non-sparking tools. Prevent fire caused by electrostatic discharge steam.

#### Conditions for safe storage, including any incompatibilities

Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity. Propoxyphene hydrochloride

## SECTION 8: Exposure controls/personal protection

#### **Control parameters**

#### Occupational Exposure limit values

no data available

#### Biological limit values

no data available

### Appropriate engineering controls

Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Set up emergency exits and the risk-elimination area.

## Individual protection measures, such as personal protective equipment (PPE)

#### Eye/face protection

Wear tightly fitting safety goggles with side-shields conforming to EN 166(EU) or NIOSH (US).

#### Skin protection

Wear fire/flame resistant and impervious clothing. Handle with gloves. Gloves must be inspected prior to use. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

#### **Respiratory protection**

If the exposure limits are exceeded, irritation or other symptoms are experienced, use a full-face respirator.

## Thermal hazards

no data available

# SECTION 9: Physical and chemical properties and safety characteristics

Physical state:	Solid
Colour:	Crystals from petroleum ether
Odour:	no data available
Melting point/freezing point:	165±3°C
Boiling point or initial boiling point and boiling range:	444°C at 760 mmHg
Flammability:	no data available
Lower and upper explosion limit/flammability limit:	no data available
Flash point:	130.6°C
Auto-ignition temperature:	no data available
Decomposition temperature:	no data available
pH:	no data available
Kinematic viscosity:	no data available
Solubility:	no data available
Partition coefficient n- octanol/water:	no data available
Vapour pressure:	2.02X10-6 mm Hg at 25 deg C (est)
Density and/or relative density:	1.038 g/cm3

Relative vapour<br/>density:no data availableParticle<br/>characteristics:no data available

## SECTION 10: Stability and reactivity

## Reactivity

no data available

## Chemical stability

Stable in solution at pH 2 to 3.5. Propoxyphene hydrochloride

### Possibility of hazardous reactions

no data available

## Conditions to avoid

no data available

### Incompatible materials

no data available

## Hazardous decomposition products

When heated to decomposition it emits toxic fumes of /Nitrogen oxides/. .

## SECTION 11: Toxicological information

### Acute toxicity

Oral: LD50 Rat female oral 990 mg/kg alpha-D-Propoxyphene napsylate monohydrate (Darvon-N) Inhalation: no data available Dermal: no data available

## Skin corrosion/irritation

no data available

## Serious eye damage/irritation

no data available

## **Respiratory or skin sensitization** no data available

## Germ cell mutagenicity

no data available

## Carcinogenicity

no data available

## Reproductive toxicity

no data available

## STOT-single exposure

no data available

## STOT-repeated exposure

no data available

## Aspiration hazard

no data available

## SECTION 12: Ecological information

#### Toxicity

Toxicity to fish: no data available Toxicity to daphnia and other aquatic invertebrates: no data available Toxicity to algae: no data available Toxicity to microorganisms: no data available

### Persistence and degradability

AEROBIC: (d)-Proposyphene was classified as non-biodegradable in sewage treatment(1).

#### Bioaccumulative potential

An estimated BCF of 260 was calculated in fish for (d)-proposyphene(SRC), using a log Kow of 4.18(1) and a regression-derived equation(2). According to a classification scheme(3), this BCF suggests the potential for bioconcentration in aquatic organisms is high(SRC).

#### Mobility in soil

The Koc of (d)-proposyphene is estimated as 8.1X10+4(SRC), using a log Kow of 4.18(1) and a regression-derived equation(2). According to a classification scheme(3), this estimated Koc value suggests that (d)-proposyphene is expected to be immobile in soil.

#### Other adverse effects

no data available

## **SECTION 13: Disposal considerations**

#### Disposal methods

#### Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

#### Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas

## **SECTION 14: Transport information**

### **UN Number**

ADR/RID: UN3249 (For reference only, please check.) IMDG: UN3249 (For reference only, please check.) IATA: UN3249 (For reference only, please check.)

## **UN Proper Shipping Name**

ADR/RID: MEDICINE, SOLID, TOXIC, N.O.S. (For reference only, please check.) IMDG: MEDICINE, SOLID, TOXIC, N.O.S. (For reference only, please check.) IATA: MEDICINE, SOLID, TOXIC, N.O.S. (For reference only, please check.)

## Transport hazard class(es)

ADR/RID: 6.1 (For reference only, please check.) IMDG: 6.1 (For reference only, please check.) IATA: 6.1 (For reference only, please check.)

## Packing group, if applicable

ADR/RID: II (For reference only, please check.) IMDG: II (For reference only, please check.) IATA: II (For reference only, please check.)

## Environmental hazards

ADR/RID: Yes IMDG: Yes IATA: Yes

#### Special precautions for user

no data available

#### Transport in bulk according to IMO instruments

no data available

## SECTION 15: Regulatory information

Safety, health and environmental regulations specific for the product in question

European Inventory of Existing Commercial Chemical Substances (EINECS)

Listed.

## EC Inventory

Listed.

## United States Toxic Substances Control Act (TSCA) Inventory

Not Listed.

China Catalog of Hazardous chemicals 2015

Not Listed.

New Zealand Inventory of Chemicals (NZIoC)

Listed.

(PICCS)

Not Listed.

Vietnam National Chemical Inventory

Not Listed.

IECSC)

Not Listed.

### Korea Existing Chemicals List (KECL)

Not Listed.

**SECTION 16: Other information** 

#### Abbreviations and acronyms

CAS: Chemical Abstracts Service

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: Regulation concerning the International Carriage of Dangerous Goods by Rail

IMDG: International Maritime Dangerous Goods

IATA: International Air Transportation Association

TWA: Time Weighted Average

STEL: Short term exposure limit

LC50: Lethal Concentration 50%

LD50: Lethal Dose 50%

EC50: Effective Concentration 50%
